NORTHAMPTON AREA SCHOOL DISTRICT

ATHLETIC DEPARTMENT HANDBOOK

INTRODUCTION

This handbook has been developed to assist the Athletic Department staff of the Northampton Area School District in serving the young men and women that elect to take part in the interscholastic athletic program. It contains athletic department procedures, regulations, and other information that will be helpful in administering, maintaining, and promoting the athletic program.

In addition to the materials presented in this handbook, all members of the coaching staff must familiarize themselves with the rules of the sports they coach, as well as the rules and regulations found in the constitution and by-laws of the Pennsylvania Interscholastic Athletic Association.

GUIDELINES FOR STUDENT PARTICIPATION IN CO-CURRICULAR ACTIVITIES

The following guidelines are minimum standards and do not restrict a coach or advisor from establishing guidelines beyond these that pertain to their activity.

Anyone not adhering to these school or coaching guidelines is subject to dismissal from the activity. This action may be carried out by the coach/advisor, athletic director, or principal.

Coaches/advisors will submit a current roster to the Athletic Director. Additions or deletions may be applied as they occur when appropriate. Coaches/advisors will be given notification of any action affecting their members. Coaches/advisors are responsible for enforcement within their activity.

All coaches/advisors are to submit in writing a copy of their sport/activity guidelines to the Athletic Director at the beginning of each new season.

PHILOSOPHY

Interscholastic Athletics

The Northampton Area School District Athletic Department believes that the purpose of an interscholastic athletic program is to provide learning experiences that will contribute to the personal, physical, and psychological development of the individual student athlete. These learning experiences will be consistent with the educational goals of the Northampton Area School District and will complement the academic program of the District. Hence, participation in interscholastic athletics can serve an important role in meeting the needs of secondary level students within the total educational process.

The Northampton Area School District interscholastic athletic program is both voluntary and competitive and will be designed to meet the needs of student athletes. In order to participate, student athletes must be physically healthy, academically qualified, and willing to make a significant personal commitment to maximize the development of their knowledge, skills, and attitudes relative to the particular sport.

All athletic teams will operate under the leadership and supervision of an effective coaching staff committed to accomplishing the educational goals of the school system. Members of the coaching staff will employ safe and educationally sound techniques designed to actively promote the development of the student athlete as a whole person. Also, coaches will be expected to continually improve their coaching techniques through participation in appropriate professional development programs.

The school administration, especially the athletic director and the secondary principals, will provide a supportive environment for the coaches and athletes at all levels. All district administrators should be committed to the philosophy stated herein.

The interscholastic athletic program will be increasingly competitive as students progress from the middle school, junior high and through the junior varsity to the varsity levels. The earlier levels will serve as developmental programs for the more advanced levels. Team goals will reflect these goals. Varsity coaches will work with junior varsity and junior high coaches to coordinate the developmental aspects of the program in each particular sport.

At the junior high/middle school level of interscholastic competition, coaches will place a strong emphasis on instruction and on maintaining sufficient levels of participation in that sport to allow the individual student athlete to develop his/her athletic potential. Participation and development of skills in a sport will be valued above the winning of contests. The needs of the team would be balanced with the developmental needs of the individual team members. The number of participants accepted for membership on a team, however, must support this commitment to high levels of instruction and participation.

At the junior varsity level, instruction and the development of individual skills for all athletes will continue to be emphasized. However, team success in interschool competition will also be valued. Athletes will become increasingly aware of the importance of teamwork and a positive attitude toward team success. The number of athletes selected for the team will allow the coaches not only to instruct and assist the participants in their individual development but also to teach teamwork as an important factor in interscholastic competition.

At the varsity level of interscholastic competition, coaches will have the dual responsibility of fostering individual skill development and achieving team success. To achieve this end, the most effective student athletes as judged by the coaching staff, regardless of grade level, will be given the opportunity to further develop their athletic abilities and to participate at the most advanced levels of interscholastic athletic competition. Coaching emphasis will be placed on helping the members of the team to work together and to develop a strong desire to attain the highest possible levels of team success.

Many Northampton Area School District student/athletes participate at the interscholastic levels after going through the various athletic associations in the District which act as a feeder program for the Middle School and Senior High athletic teams. Coaches are encouraged to acknowledge and work in cooperation with all School District athletic associations and clubs.

Northampton Area School District residents and students are accustomed to a winning tradition, high levels of competition and standards of excellence in athletics. These facets of sports have their place but tend to place pressure on both athletes and coaches. The Northampton Area School District has been fortunate in having outstanding athletes and excellent coaches. These factors have enabled the school district to have teams that are highly competitive, yet retain a reputation for a sense of fair play. Although success and training students in a sense of fair play are important, they are only part of the training provided to the young men and women who attend Northampton Area School District schools. The Northampton Area School District athletic program will focus its efforts on the development of each individual student as a person within the context of a sense of fair play and a good won-lost record.

15. **Team Selection** – The nature of certain sports limits the number of team members who can be effectively and efficiently handled by the coaching staff and/or facilities. It is essential that students be given the opportunity to discuss with the coaching staff reasons why they have not been selected for the team. Coaches will not post a list of names of students who have not made the squad. If a list of students who have made the team is posted, it is to include a note encouraging those who have not made the team to discuss the reasons with the coach. PARENT AND COACH COMMUNICATION GUIDELINES

Parent-coach relationship

Both parenting and coaching are extremely difficult vocations. By establishing an understanding of each position, we are better able to accept the actions of the other and provide greater benefit to children. As parents whose children are involved in our athletic program, you have a right to understand what expectations are placed on your child. This begins with clear communication from the coach of your child's program.

Communication you should expect from your child's coach

1. The coach's philosophy.
2. Expectations the coach has for your child as well as the team.
3. Locations and times of all practices and contests.
4. Team requirements, i.e., special equipment, off-season conditioning.
5. Procedures we follow should your child be injured during participation.
6. Discipline that results in the denial of your child's participation.

Communication coaches expect from parents

1. Concerns expressed directly to the coach.
2. Notification of any schedule conflicts well in advance of the practice or event.
3. Specific concern in regard to a coach's philosophy and expectations.

As your children become involved in the programs at Northampton Middle and High School, they will experience some of the most rewarding moments of their lives. It is important to understand that there may also be times when things do not go the way you or your child wishes. At these times we encourage discussion with the coach.

Appropriate concerns to discuss with coaches

1. The treatment of your child, mentally and physically.
2. Ways to help your child improve.
3. Concerns about your child's behavior.

It is very difficult to accept your child's not playing as much as you may hope. Coaches are professionals. They make judgment decisions based on what they believe to be best for all students involved. As you have seen from the list above, certain things can be and should be discussed with your child's coach. Other things must be left to the discretion of the coach.

Issues not appropriate to discuss with coaches

1. Playing time.
2. Team strategy.
3. Play calling.
4. Other student athletes.

There are situations that may require a conference between the coach and the parent. These are to be encouraged. It is important that both parties involved have a clear understanding of the other's position. When these conferences are necessary, the following procedure should be followed to help promote a resolution to the issue of concern.

If you have a concern to discuss with a coach:

1. Call to set up an appointment with you coach.
2. If the coach cannot be reached, call the Athletic Director.
3. The high school athletic telephone number is 610-262-7816.
4. Please do not attempt to confront a coach immediately before or after a contest or a practice. These can be emotional times for both the parent and the coach. Meetings of this nature do not promote resolution.

What can a parent do if the meeting with the coach did not provide a satisfactory resolution?

1. Call and set up an appointment with the Athletic Director to discuss the situation.
2. At this meeting the appropriate next step can be determined.

Research indicates a student involved in sports activities has a greater chance for success during adulthood. Many of the character traits required to be a successful participant are exactly those will be promote a successful life after high school. We hope the information provided makes both your child's and your experience with the Northampton High School athletic program less stressful and more enjoyable.

Coaches must schedule supervised instructional sessions with the Athletic Department prior to usage.

Summer hours are generally 7:30 a.m. to 9:00 a.m. and 5:00 p.m. to 6:30 p.m. Monday through Thursday, starting the Monday after graduation to the Thursday before the start of fall sports. Coaches and trainers are responsible for completing injury forms for claim purposes. The training staff will initiate this process.

PLEASE MAKE YOUR ATHLETES AWARE OF THIS POLICY.

IMPORTANT -- All athletes must notify the head athletic trainer and their coaches if they go to a doctor immediately.

ATHLETIC TEAM PRACTICES ON SNOW DAYS AND EARLY DISMISSAL DAYS AS A RESULT OF WEATHER

Anytime there is an early dismissal or school closing due to weather or emergency, no coach may hold practice without consent from the Athletic Director, Principal and the Superintendent.

The Athletic Director, Principal, Supervisor of Grounds and the Superintendent will consider the following situations:

1. In the event that school is dismissed early as a result of weather conditions, athletic teams will be able to practice **if conditions improve**. These practices will **not** be mandatory.
2. When school is closed the entire day as a result of weather conditions, practice may be scheduled during the afternoon hours if weather conditions improve. These practices will **not** be mandatory. The School District will not supply transportation on these days.
3. In the event there is a contest scheduled on an early dismissal day or a snow day, the playing of that contest will be determined by the schools involved, taking into consideration the weather conditions at that time

GUIDELINES FOR BOOSTER CLUBS

The Northampton Area School District recognizes and approves of Booster Clubs. Booster Clubs are encouraged to work with the athletic department to provide and promote fan support and good sportsmanship for Northampton High School athletics. The club shall not seek to influence or direct the policies or procedures of the athletic program. This responsibility rests with the Northampton Area School District Board of Education and the administration of the Northampton Area High School. The operation of these clubs must comply with the policies of the School District.

Athletic Philosophy

The interscholastic program in the Northampton Area School District is a co-curricular activity. The athletic philosophy was developed to ensure the implementation of the program in accord with the educational goals of the school district. The functions of Booster Clubs must not conflict with the philosophy of the athletic program. It is recommended that the philosophy be shared with all club members so there can be a better understanding of the district position on interscholastic athletics.

Fund Raising

Fundraising is to be done in the name of the Booster Club, not the Northampton Area School District, Northampton Athletic Department or the Northampton High School. Fund raising is limited to the particular sport season of the booster club or during the summer months when school is not in session, except when a fund raising event of an out-of-season group gets approval for an event that is not directly in competition with other groups.

Student athletes are not to be required to take part in fund raising activities, nor are they to be singled out if they do not wish to take part in the fund raising activity. Participation must be voluntary. Booster Clubs are not to ask students to participate in door-to-door fund raising. While the district recognizes the benefits students receive from the booster support, asking students to solicit door-to-door may put them at risk in terms of their personal safety.

Due to the number of sports in the school district athletic program, it is suggested that booster clubs support no more than one major fund raising project per season. Clubs are discouraged from involving themselves in fund raising projects that would be in excess of their projected needs for that sports season.

Banquets

It is recommended that all banquet activities be scheduled following the completion of the season's schedule. Care must be taken by the Booster Clubs not to provide athletes with gifts or awards that may be in violation of the rules and regulations of the Pennsylvania Interscholastic Athletic Association. A violation of these rules and regulations would effect the amateur standing of the athlete. (See the next section on "Permissible Awards"). Any questions regarding articles to be given to athletes should be directed to the Athletic Director at the Senior High School.

When planning banquets, Booster Clubs should be sensitive to the expense that will be incurred by those wishing to attend. Picnics and potluck dinners held in school cafeterias or public park facilities are inexpensive options that can provide a pleasant atmosphere for honoring athletes and their families.

Permissible Awards (PIAA Regulations)

The Pennsylvania Interscholastic Athletic Association governs our sports program and has listed below the permissible awards for our student athletes:

A school may purchase a sweater, jacket, blazer, blanket, shirt, jersey, watch, ring, scroll, photograph, medal, plaque, or similar trophy, with appropriate institutional insignia or comparable identification, for an athlete who has earned the official school letter or award, and present the same at the time the official award is made.

The sponsor or sponsors of an athletic event or group of events may purchase a sweater, jacket, blazer, blanket, shirt, jersey, watch, ring, scroll, photograph, medal, plaque, or similar trophy, with appropriate institutional insignia or comparable identification, for an athlete who has earned the official award for the event or events, and present the same at the time the official award for the event or events is made.
